## MISSING AWR Mouser:

Just recently one of our Mousers came up missing. I heard a cry coming from the wall. Some how he had gotten up on the top beam in the warehouse found a hole and went exploring. Well his adventure turned into a 12 hour ordeal. I could hear him but in order to find him I had to go to the warehouse next door and ask if I could try to reach him. I am sure they thought I was off my rocker, but after a few minutes, I was able to locate him above the ceiling tiles. I removed several and out come Punkin he was a little dirty, hungry and scared but other than that he survived his adventure. I don't think he will be heading off anytime soon. However just in case I closed the hole.

## **FOLLOW UP:**

**American Wiping Rags 1st Annual Spring Time Show was a great success. We had a wide variety of vendors; I want to thank all of them for attending. The weather turned out nice as well. A good stream of people came and several drawings were held through out the vendor's booths. Thanks again to those vendors who were here I hope to see you next year. Same time, same place, last Saturday in April.**

## ***Meet the American Wiping Rag's Mousers:***

- ***Oscar Meyer*** is all orange. He has been a mouser for 6 years. He is mellow and laid back. His birthday is next month.
- ***Punkin*** is 8 months mostly all orange with white legs and is shy and timid.
- ***Olly*** is 8 months old mostly white with orange spots and is very high maintenance.
- ***Frankenstein*** is a recently retired mouser. He didn't get along with the brothers so he is living at home. He is a baby doll Siamese and is 4 years old.

Olly and Punkin are from a litter I rescued from the trash can. I was able to find good homes for their brothers and sisters. Mom is living in Canon City with a good family.
